

--29. The syringe of claim 28 wherein said physical indicia represents the length of an extender which is attached to said plunger within said syringe.

Sub
B3
72

--30. (New) A syringe, comprising
a body having a closed forward end having a nozzle and
an open rearward end,
a plunger located within said body, and
physical indicia on said syringe related to the range
of travel of an injector ram coupled to the plunger when the
syringe is coupled to an injector.

5/26/77

--31. (New) The syringe of claim 42 wherein said physical indicia represents the length of an extender which is attached to said plunger within said syringe.--

Remarks

Claims 22-31 now remain in the application. There are now 5 independent claims and 10 total claims.

The claims of this divisional application are directed to a syringe that includes indicia, for use by an injector such as that covered by applicant's prior U.S. Patents from which priority is claimed.

The Examiner's attention is directed to an Information Disclosure Statement being submitted concurrently herewith.

A check for the filing fee and fees for excess independent claims should be attached to the transmittal of the application. If the check is missing, or is excessive or deficient, please apply any charges or credits necessary to complete this communication, to Deposit Account 23-3000.

Respectfully submitted,

Thomas W. Humphrey
